A tour of the admin screens

Getting Started · https://sutraplugins.com/docs/membersutra/admin-tour/

Everything is under the **MemberSutra** menu in your dashboard. Each screen has its own tabs at the top.

- **Dashboard** – memberships, revenue, renewals and what needs attention. Pro adds Downloads and Advanced Analytics tabs.
- **Memberships** – All Memberships, Membership Plans, Customization (texts on product pages, checkout and My Account) and Settings (store-wide membership rules).
- **Subscriptions** – All Subscriptions, Subscription Activities (the log), Customization and Settings (renewals, cancellations, failed payments).
- **Content Restriction** – Restriction Rules, Access Rules, Content Blocks and Paywall & Teasers.
- **Gifts** – gifted memberships and subscriptions (Pro, when gifting is on).
- **Notifications** – every e-mail the plugin sends.
- **Settings** – Overview, Security & Login, Two-Factor Auth, Redirection Rules and Email Branding.
- **Tools** – System Status, Import / Export, Database Tools, Membership & Access, Scheduled Tasks, Cron Jobs, Diagnostics and the Audit Log.
- **Add-ons** – the free SutraPay payment plugins and the add-ons included with Pro (Google Drive, Cart Recovery, Email SMTP). Installed add-ons get their own menu items – see Pro add-ons.
- **Pro** – licence activation, every Pro feature and what it still needs, the Pro add-ons and a system report for support.

Tip: On each product you also get a **Membership Options** panel and, for subscription products, **Subscription** settings under **Product data**.
