Sutra Plugins

Audit log and personal data

Security & Privacy · https://sutraplugins.com/docs/membersutra/audit-log-and-privacy/

Audit Log

Go to **MemberSutra → Tools → Audit Log**. It records security and admin activity – logins, lockouts, setting changes and denied actions. Filter by event type and result, open **Details**, or **Export CSV**.

The Audit Log.

Personal data requests

MemberSutra plugs into the WordPress privacy tools. Under **Tools → Export Personal Data** and **Tools → Erase Personal Data** the member’s memberships are included with their WooCommerce data.

When you uninstall

Plugin data is kept when you delete the plugin, unless you turn on **Delete all plugin data on uninstall** under **MemberSutra → Settings → Overview**.
