Sutra Plugins

Free vs Pro: which features need Pro?

Getting Started · https://sutraplugins.com/docs/membersutra/free-vs-pro/

Included in the free plugin

- Unlimited membership plans: free, fixed-length and subscription plans
- Content restriction and the Access Rules table
- Recurring payments through Stripe, PayPal and Razorpay, with renewals every 1–7 days or 1–3 weeks
- Pause, resume and cancel rules for subscriptions
- The member area in My Account
- Membership, account and subscription e-mails
- Dashboard and the WordPress dashboard widget
- Login lockouts, sign-up rules and the audit log

Added by Pro

- Lifetime plans, month and year durations, signup fees, free trials and end-of-plan actions
- Grace periods and failed-payment rules
- Paywall and teaser design, and reusable content blocks
- Content dripping
- Gutenberg blocks and Elementor widgets
- Protected downloads and download credits
- Member discounts and renewal pricing
- Member self-service: switch, pause and cancel from My Account
- Gift memberships and subscription boxes
- Advanced analytics and reports

- Two-factor login codes
- Add-ons: Google Drive Integration, Cart Abandonment Recovery and Email SMTP – see Pro add-ons
- Priority e-mail support

i Good to know: Without Pro, Pro settings are shown with a short “available in Pro” note instead of a locked control. Pro’s features need an active licence. If you deactivate Pro, your saved Pro settings are kept and apply again when Pro is active, and an expired licence keeps the features (only updates and support stop).

Compare plans on the pricing page.
