Member blocks for the block editor

Blocks, Widgets & Shortcodes · https://sutraplugins.com/docs/membersutra/gutenberg-blocks/

Pro feature: The member blocks come with MemberSutra Pro.

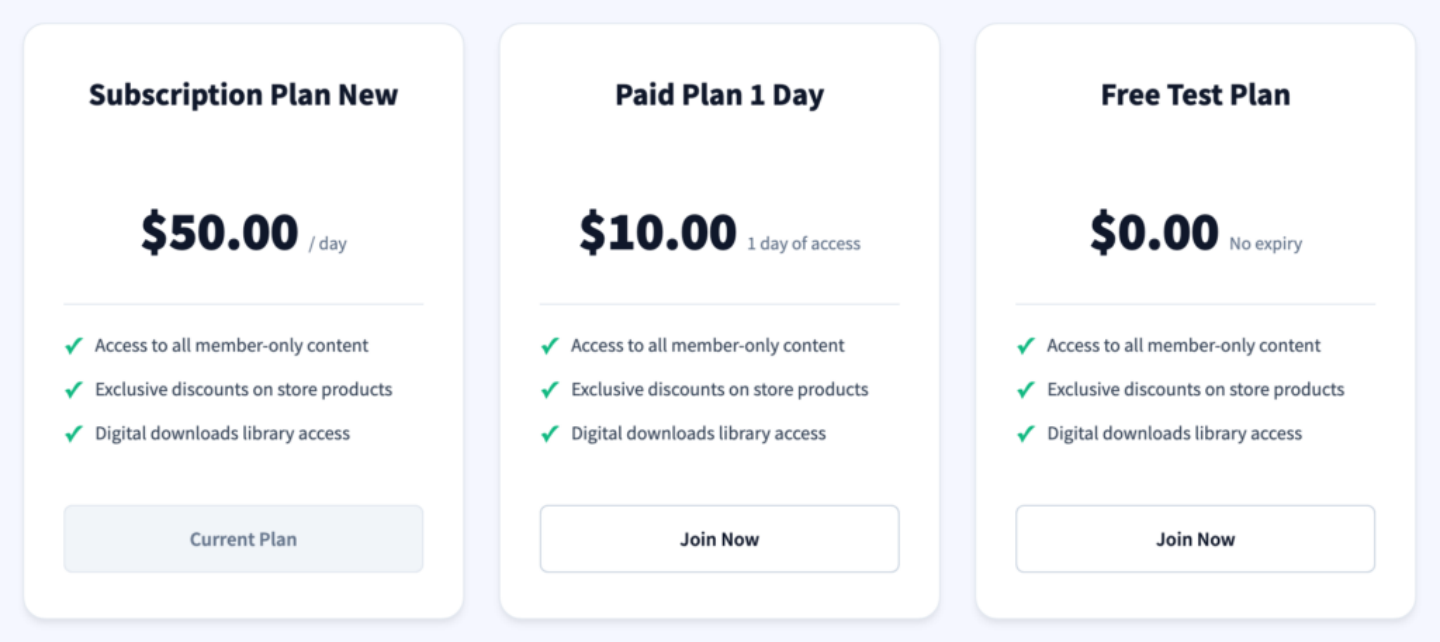

Open any page in the block editor, click **+** and search for “member”, or scroll to the **MemberSutra** group in the inserter.

The Member Dashboard Hub block on a member page.

The blocks

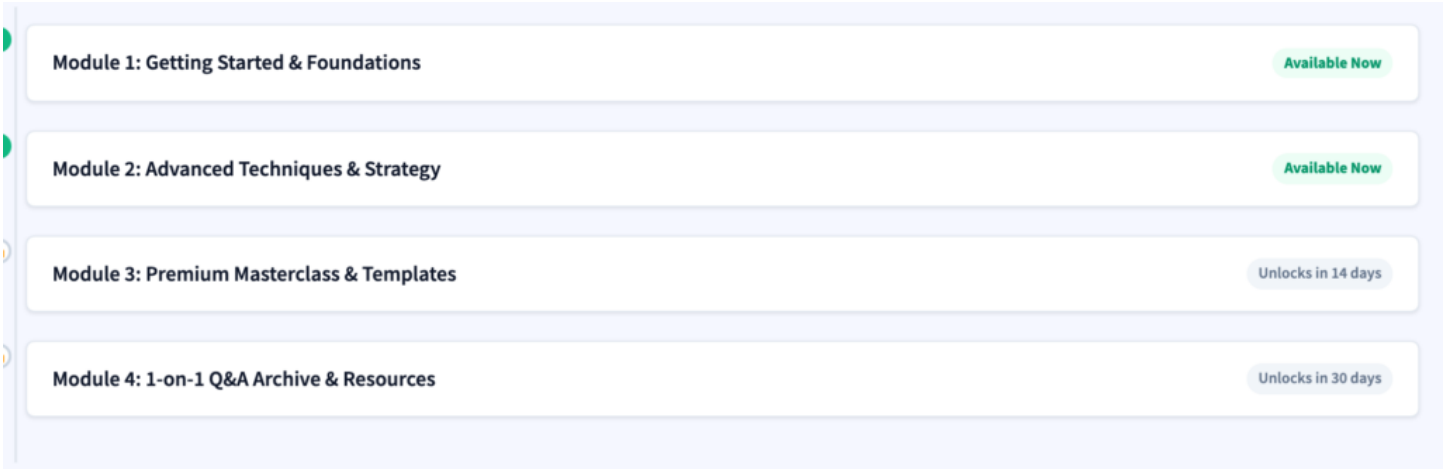

- **Member Dashboard Hub** – the member’s plans, status, credits and quick links in one panel.
- **Member Status Card** – the current plan, status and renewal or expiry date.
- **Membership Pricing Table** – your plans side by side with “Join” buttons that add the linked product to the cart.
- **Member Locked Content** – wrap any blocks; members of the chosen plans see them, everyone else sees a teaser and a join message.
- **Drip Content Schedule** – what unlocks when, for the logged-in member.
- **Membership Alert Banner** – a notice for expiring memberships, failed payments or guests.
- **Downloads Vault** – the member’s downloadable files in one place.
- **Member Credit Counter** – download credits left this period.
- **Member Discounts Grid** – products with member prices.
- **Gift Claim & Voucher Card** – a form where gift recipients enter their code.

Membership Pricing Table block.

Build a member area page

1. Create a page called “Member Area”.
2. Add **Membership Alert Banner** at the top, then **Member Status Card**.
3. Add **Member Locked Content**, choose the plans, and put your members-only blocks inside it.
4. Add **Drip Content Schedule** and **Downloads Vault** if you use them.
5. Publish. Point members to it with Redirection rules.

Drip Content Schedule block.

Tip: Every block has its own settings in the right-hand sidebar – colours, which plans it shows for and the texts.
