Sutra Plugins

Install MemberSutra (Free and Pro)

Getting Started · https://sutraplugins.com/docs/membersutra/install-membersutra/

Install the free plugin

1. Make sure WooCommerce is installed and active.
2. Go to **Plugins → Add New Plugin → Upload Plugin** and choose `membersutra.zip`.
3. Click **Install Now**, then **Activate**.
4. A new **MemberSutra** menu appears in your dashboard.

Install MemberSutra Pro

1. Download `membersutra-pro.zip` from your purchase e-mail or account.
2. Upload and activate it the same way as the free plugin. Keep the free plugin active – Pro builds on it.
3. Open **MemberSutra → Pro**, enter your licence key and click **Activate License** – see Activate your Pro licence.

Install a payment gateway

MemberSutra works with any WooCommerce gateway for one-time payments. For automatic renewals install one of the MemberSutra gateways, which are free:

- SutraPay for Stripe – cards, wallets and Stripe-billed subscriptions.
- SutraPay for PayPal – PayPal, Pay Later, cards and PayPal-billed subscriptions.
- SutraPay for Razorpay – UPI, cards, netbanking and wallets for India.
- You can also install them from **MemberSutra → Add-ons**.

i Good to know: Updating? Install the new ZIP over the old one (WordPress offers **Replace current with uploaded**). Your plans, members and settings are kept.
