Sutra Plugins

Set up Razorpay

Payment Gateways · https://sutraplugins.com/docs/membersutra/razorpay-setup/

SutraPay for Razorpay dashboard.

1. Install and activate **SutraPay for Razorpay**.
2. Go to **WooCommerce → SutraPay for Razorpay** and follow the **Setup checklist**: add your Key ID and Key Secret from the Razorpay Dashboard.
3. Open the **Webhooks** screen, copy the **Webhook URL**, add it as a webhook in Razorpay with the events listed there, and paste the webhook secret into **Settings** – see Set up the Razorpay webhook.
4. Place a test payment in Razorpay test mode, then switch to live keys.

i Good to know: Razorpay runs a subscription itself when every renewal costs the same. Otherwise the first payment is taken once and each renewal is invoiced by your site and paid with Razorpay. More guides: SutraPay for Razorpay docs.
