Sutra Plugins

Shortcodes reference

Blocks, Widgets & Shortcodes · https://sutraplugins.com/docs/membersutra/shortcodes/

Shortcodes work in the classic editor, a Shortcode block, Elementor's Shortcode widget and most page builders. Free shortcodes start with `membersutra_`; shortcodes that only exist with Pro start with `membersutrapro_`. Some download shortcodes have both names – they do the same thing.

Locked content

Pro feature: Needs Pro. Without Pro the text inside is shown to everyone.

```
[membersutra_locked plan="all" teaser="Members get the full guide." message="Join to read the rest."]Members-only text here[/membersutra_locked]
```

- **plan** – `all` (any active membership) or plan IDs separated by commas, e.g. `plan="12,15"`.
- **teaser** – text shown to non-members above the lock.
- **message** – the join message shown to non-members.

Download credits

```
[membersutra_credit_balance]
```

Shows the logged-in member's download credits. For product pages: `[membersutra_credits_available]`, `[membersutra_credits_required]`, `[membersutra_remaining_credits]` and `[membersutra_file_size]` (Pro also accepts the same names starting with `membersutrapro_`).

Download links

```
[membersutra_download_product_links product_id="123"]
```

Lists the downloadable files of a product for members who have access.

```
[membersutra_protected_links]
```

Shows protected file links only to members who may download them (Pro) – see Protected downloads.

Members-only downloads (Pro)

These work when **How to manage access to restricted products** is set to “Everybody can view products, but only members can download them” – see Download files and update notices.

```
[membersutrapro_download_link]
```

The download button, placed by you (choose **Use Shortcode** as the download link position).

```
[membersutrapro_download_files product_id="123"]
```

The names of all download files of a product. Members get a link per file; the latest file carries a badge. Without `product_id` it uses the current product.

```
[membersutrapro_notify_updates product_id="123"]
```

A “Notify me about updates” switch: logged-in users get an e-mail when a download file is added or replaced.

Gift claim

```
[membersutra_gift_claim]
```

A form where a gift recipient enters their code (Pro) – see Gift memberships.

Next steps

- Paywall and teasers
- Member blocks for the block editor
