Sutra Plugins

Subscription boxes

Member Experience · https://sutraplugins.com/docs/membersutra/subscription-boxes/

Pro feature: Subscription boxes need MemberSutra Pro.

Subscription box settings.

1. Create a product and choose the **Subscription box** product type.
2. Choose the products customers can pick from and how many items a box holds.
3. Set the price: a fixed box price, or the sum of the chosen items.

4. Customers build their box on the product page; each renewal ships the current box, and they get a **Next Box Contents** e-mail before it renews.
