Sutra Plugins

Free trials and signup fees

Subscriptions & Renewals · https://sutraplugins.com/docs/membersutra/trials-and-signup-fees/

Pro feature: Trials and signup fees need MemberSutra Pro.

Add a trial

1. Edit the subscription product.
2. Under **Trial Period**, set the **Duration** (for example 14 days).
3. Leave **Amount** empty for a free trial, or enter a price for a paid trial.

The first renewal is charged when the trial ends. Customers get a **Trial Ending Soon** e-mail before that (timing under **Subscriptions → Settings → Reminder e-mails**).

Add a signup fee

Enter a **Signup Fee** on the product. It is charged once with the first payment and is not part of the renewals.

Show them to customers

Under **MemberSutra → Subscriptions → Customization** you can show the trial and the signup fee under the price, a “Trial Period” line in the cart, and hide a zero subtotal for free trials.
