Sutra Plugins

Renew or upgrade your licence

Account & Licensing · https://sutraplugins.com/docs/membersutra/upgrade-renew-licence/

A yearly Pro licence renews at the same price you first paid – the discount applies on every renewal, not just the first year. Lifetime licences never need renewing.

- **Renew** – keep your licence active to keep getting updates and support. If it expires, Pro keeps working; only updates and support stop.
- **Upgrade** – to move to a plan with more sites, see the pricing page or contact us.
- **Use another licence key** – open **MemberSutra → Pro** and enter the new key when the activation form asks for it, or contact us to move your licence to another site.
