Redirection rules after login, logout and registration

Security & Privacy · https://sutraplugins.com/docs/redirection-rules/

Go to **FW Memberships → Settings → Redirection Rules**. Staff are never redirected.

After login

- **WooCommerce “My Account” (Default)**
- **Directly to “Memberships” Tab (Recommended)**
- **Previous Browsed Page** – back to where the member was.
- **A Specific Page of This Site** or a **Custom Destination URL** on this site.

Keep **Keep the Page the Member Asked For** on: a member who clicked a members-only link goes straight to that page.

After logout

Default WooCommerce behaviour, the store homepage, the shop page, or a page of your choice.

After registration

Turn on **Redirect Newly Registered Users to an Onboarding Page** and enter the page, e.g. `/welcome/`.
