Sutra Plugins

Show PayPal Pay Later messaging

Guides · https://sutraplugins.com/docs/sutrapay-for-paypal/paypal-pay-later-messaging/

Pay Later messaging tells shoppers they can pay in instalments with PayPal, next to the price.

1. Open **WooCommerce → SutraPay for PayPal → Pay Later**.
2. Turn on **Enable Pay Later messaging**.
3. Tick where it shows: product page, cart page, checkout page.
4. Pick the **Style**: PayPal logo, the "PP" monogram or text only, and the text colour (black, white for dark backgrounds, or monochrome).
5. Click **Save changes**.

PayPal decides which offer to show for the amount and the shopper's country, and shows nothing where Pay Later is not available.
