Sutra Plugins

Send payment links and fetch the payment status

Guides · https://sutraplugins.com/docs/sutrapay-for-razorpay/razorpay-payment-links-status/

Every order paid (or to be paid) with Razorpay has a Razorpay box on the order screen.

- **Send Razorpay payment link**: for an unpaid order, Razorpay sends the customer a payment link by email and SMS for the order total. When they pay, the order is marked paid. The order notes record each link sent.
- **Fetch latest status**: reads the payment from Razorpay again, for example when a customer says they paid but the order still waits.

Payment links need the order's currency to be one your Razorpay account accepts.
