Sutra Plugins

Can another subscription plugin use this gateway for renewals?

Questions & answers · https://sutraplugins.com/docs/sutrapay-for-stripe/stripe-another-subscription-plugin-use-gateway/

Yes. A plugin that creates its own renewal orders can fire `woocommerce_scheduled_subscription_payment_sutrapay_stripe_card` (the same action WooCommerce Subscriptions uses) with the renewal order, or call the gateway's `process_payment()` from a scheduled task: the order's saved Stripe payment method is charged off-session. The outcome is reported with the `sutrapay_stripe_renewal_payment_result` action; `sutrapay_stripe_renewal_requires_authentication` and `sutrapay_stripe_renewal_paid_by_customer` report the 3D Secure recovery.

More: install and set up SutraPay for Stripe.
