Sutra Plugins

Can I move my subscriptions from another Stripe plugin?

Questions & answers · https://sutraplugins.com/docs/sutrapay-for-stripe/stripe-move-subscriptions-from-another-stripe-plugin/

Yes, when both plugins use the same Stripe account. Under Settings > Advanced, click "Check subscriptions" to see which can be moved, then "Move them to SutraPay". Each moved subscription keeps the customer's saved card and renews through SutraPay. Subscriptions that cannot be moved safely are listed with the reason and left as they were. Large stores can use `wp sutrapay-stripe move-subscriptions --dry-run`, then without --dry-run.

More: install and set up SutraPay for Stripe.
