Sutra Plugins

Show pay-later messaging

Guides · https://sutraplugins.com/docs/sutrapay-for-stripe/stripe-pay-later-messaging/

Pay-later messaging shows Stripe's "4 interest-free payments of $25" offer from Klarna, Afterpay / Clearpay or Affirm next to your prices, so shoppers see the option before checkout.

Turn it on

1. Turn Klarna, Afterpay / Clearpay and/or Affirm on in your Stripe Dashboard.
2. Open **WooCommerce → SutraPay for Stripe → Settings → Advanced** and turn on **Pay-later messaging**.
3. Tick where it shows: product pages (under the price), cart, checkout, shop / category pages.
4. Save. On a product page the message appears under the price; for variable products it follows the chosen variation.

Stripe picks the offer that fits the price, currency and the shopper's country, and shows nothing when none does. Only the price, currency and country are sent to Stripe.
